DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The above claims are allowable because the prior art of record fails to disclose, in combination with the other claim limitations; a directional ground relay configured to determine the direction of a fault in a three-phase power transmission line, using a plurality of voltage and current values from the power transmission line, in a zero-phase sequential current calculation unit to calculate a zero-phase sequential current based upon the current detected from the power transmission line, and a phase-comparison unit configured to compare the phase of the zero-phase sequential current to the phase of any phase voltage and determine if the zero-phase sequential current is within a predetermined range and to output the phase of the voltage in which a forward ground fault has occurred.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Demakis whose telephone number is 571.272.2050. The examiner can normally be reached on 7:30AM-4:00PM.
